Schedule of Charges

GST is added to the amounts detailed below. A 60% surcharge is added for urgent requests.

Service	Charge	Description
Plant identification service	Free	Ad hoc plant identification services for non-commercial enquiries by members of the general public and amateur organisations. Up to 6 specimens per individual per year after which commercial fees apply
Commercial Plant identification service	\$110.00 per hour (standard charge) \$55.00 per hour (reduced rate)	Plant identification services. The standard charge applies to plant identification services for commercial enquiries. Reduced rate applies when quality, desirable specimens are given to the ATH; where specimens were collected as part of a collaborative project with the ATH; or otherwise at the discretion of the Director. Fees may be waived entirely in special circumstances at the discretion of the Director.
General botanical information services	Free	Information services for members of the general public and amateur organisations where the service requires less than one hour.
Professional botanical information services	Minimum charge of three hours	Professional botanical information services including literature searches, data queries, data entry, taxonomic and nomenclature validity checks, proofreading of botanical manuscripts. Charges are based on an hourly rate for providing these services. Hourly charges are linked to the salary scale of a CSIRO 4M officer (ca. \$37.60).
Data provision	\$60.50 (small search) \$121.00 (large search)	In addition to the search fee a charge of \$1.10 per specimen record will be charged.
Botanical Consulting Fee	\$130.00 to \$190.00 / hour depending on the complexity of the consultancy	

Disclaimer of Liability

No guarantees or warranty, expressed or implied, including warranties of merchantability and fitness for a particular purpose, are made by the Australian Tropical Herbarium as to the accuracy, quality, completeness, availability or usefulness of data, information, apparatus, product, or process disclosed, provided through this service, and no responsibility or legal liability is assumed by the Australian Tropical Herbarium for any damages or inconvenience arising from its use.

Please note that

1. Sterile specimens will only be identified to genus, assuming this is possible.
2. Total time will include administration time.
3. The Australian Tropical Herbarium will not keep vouchers of identifications made. The onus is on the client to do this if further queries will be made.
